Courses taught in French

Exchange students have the opportunity to follow semesters of studies in French language, in semesters 7, 8 or 9 (Master's level).

Semester 10 is dedicated to internship.

All the semesters are held twice a year. Incoming students can enter at the end of August or at the end of January.

Language requirements	B1 level in French (B2 recommended) A2 level in English We accept all internationally recognized language certificates or confirmations issued by home university.
Additional requirements	A minimum of 180 ECTS credits validated is required to apply (3 years)
ECTS credits	1 semester = 30 ECTS credits Exchange students are expected to take a minimum workload of 20 ECTS credits per semester.
Courses	Courses have to be selected among the list of core courses. https://www.enit.fr/fr/formations/formation-ingenieur-sous-statut-etudiant/programme.html 1 optional course must be selected: <ul style="list-style-type: none"> • Mechanical Engineering • Industrial Engineering • Integrated system design • Structural materials Engineering • Civil Engineering ! Courses from different semesters can't be mixed.
Application deadlines	FALL SEMESTER: May 15 SPRING SEMESTER: December 15
Academic calendar (start/end dates)	FALL SEMESTER: September - January SPRING SEMESTER : February - June

Double degree

You can find the list of our Partners on this link:

<https://www.enit.fr/en/international-exchange/engineering-program/for-exchange-students.html>

As soon as a double degree agreement has been signed between ENIT and one of its partners, students from this institution can follow a 4 semesters curriculum at ENIT at Master's level.

To be eligible you must have completed at least four years of the educational programme at your home university.

In order to be admitted, international students coming from non French-speaking countries must justify a B2 level in French and a B1 level in English.

The aim of this exchange programme is to obtain one degree from each university.

European Project Semester

The E.P.S. is a 15-week industrial project that can be carried out by 3rd, 4th or 5th year engineering students in the areas of : Mechanical engineering, Manufacturing engineering, Civil engineering, thermal engineering, Informatics/networks engineering, Materials engineering, Robotics.

Small teams of 4-5 international students.

100% English

See the projects offered at:

<https://www.enit.fr/en/international-exchange/european-project-semester.html>

Language requirements	B1 level in English (B2 recommended) We accept all internationally recognized language certificates or confirmations issued by home university.
Additional requirements	A minimum of 120 ECTS credits validated is required to apply (2 years)
ECTS credits	1 semester = 30 ECTS credits
Courses	Project work: 24 ECTS credits French as a foreign language: 2 ECTS credits English as a foreign language: 2 ECTS credits Communication skills: 2 ECTS credits
Application deadlines	FALL SEMESTER: May 15 SPRING SEMESTER: December 15
Academic calendar (start/end dates)	FALL SEMESTER: September - December SPRING SEMESTER : March - June

Semestre de Projet d'Initiation à la Recherche (SPIR) Research Initiation Project Semester

You may apply for a Research Initiation Project Semester in our lab.

You need to send us an CV and a motivation letter and your transcript of records and then your request will be analyzed by our international coordinator.

A 30 ECTS credits semester.

USEFUL INFORMATION

Application process

The home university sends a nomination email and provides the information below for each student nominated:

- NAME, SURNAME
- GENDER
- DATE OF BIRTH
- PERIOD OF EXCHANGE (1 semester, 1 full year...)
- PROGRAMME SELECTED (semesters taught in French or European Project Semester)
- FIELD OF STUDIES AND SCHOOL CURRICULUM
- STUDENT EMAIL ADDRESS

Then the International Relations Office gets in touch with each student to complete his/her application. If the application is validated by ENIT, an invitation letter is sent to the student.

A learning agreement will be signed by the home university, the student and ENIT.

Accommodation

ENIT's International Relations Office help providing an accommodation (campus residence or shared houses).

Please download [the accommodation form](#) for further information.

Visa process

Non-European students staying more than 90 days are asked to provide us a copy of their visa.

Depending on the type of their visa, students may have to pay an extra tax to validate their long-stay visa within 3 months after their arrival in France.

More information: <https://www.campusfrance.org/en/student-long-stay-visa>

Health care

European students are asked to provide us a copy of their European Health Insurance card.

Non-European citizens must register to the French general social security system. This is free of charge.

Subscribing a complementary health insurance is highly recommended. To learn more about health care system in France:

<https://www.campusfrance.org/en/healthcare-student-social-security>

Insurance

Every student will be required to provide proof of **housing insurance**. You should know that **housing insurance includes third-party liability insurance, "assurance responsabilité civile", which is required for enrollment at the university.**

A "package" can be asked at the opening of a bank account: account + housing insurance including third-party liability insurance.
